SKATER™ All-Purpose and Nephrostomy Drainage Sets

Formulated for patient comfort, kink resistance, easy insertion, and radiopacity.

- Skived drainage holes promote maximum drainage flow
- Position markers reference catheter migration post-placement
- Locking shoulder tip construction reduces accordion effect during entry
- Polyurethane catheter material provides kink resistance and patient comfort
- Slip-Coat™ hydrophilic coating significantly reduces friction allowing for easier catheter insertion
- Consistent catheter-to-hub inner lumen size eliminates bottleneck effect
- Choice Lock™ trocar stylet allows for single-handed abscess drainage placement
- Low profile, easy-to-use locking system with snap-off tab ensures secure pigtail deployment while maximising patient comfort
- Designed for direct stick or Seldinger technique

SKATER™ All-Purpose and Nephrostomy Drainage Sets include:

- (1) SKATER™ catheter
- (1) Removable pigtail straightener
- (1) Choice Lock™ trocar stylet
- (1) Metal stiffening cannula
- (1) Flexible stiffening cannula
- (1) Locking system with snap-off tab (not available on non-locking pigtail catheters)
