PRODUCT RANGE 2020

The all-in-one endoscopic spine set for cervical, thoracic and lumbar spine surgery

With more than 20 years of experience in spine surgery, this set was developed by Dr. Michael Schubert.

Perform a less complicated surgery by a defined range of instruments needed for cervical, thoracic and lumbar spine surgery. Have a fast access with the ideal combination of reamers, trephines and other instruments by using your existing hardware (endoscopic tower).

- The set exists of a durable tray including 33 instruments for transforaminal, interlaminar and full endoscopic approaches
- High quality steel with scratch-proofed patented handle surfaces ensures a long lasting utilization and functionality
- 100% made in Germany: This set was developed and is produced in Germany
- Easy cleaning by Luer-Lock connections
- All-in-one set for less complexity and better overview during surgery: Universal handle for all drills, trephines and needles
